

# Sage MIP Fund Accounting

Unlike commercial accounting systems, Sage MIP Fund Accounting gives nonprofits the ability to track and report on funds from multiple sources, across multiple budget periods—and integrates with your Sage Fundraising system!

Specifically designed for nonprofits, Sage MIP Fund Accounting allows you to:

- Cut hours or days off your reporting cycle—create the reports you need right in the system.
- Boost productivity—automate transaction entry with tools and shortcuts.
- Smooth processes—seamlessly integrate with your fundraising system and reduce errors.
- Secure data—restrict access to specific projects or funds by user.

Recently voted as Best Overall Nonprofit Accounting Software by financial managers nationwide, Sage MIP Fund Accounting is the accounting management solution preferred by nonprofits for planning and managing budgets, maximizing grants, and producing accurate customized reports in minutes.

## Simply the easiest, most flexible reporting around

Produce reports that meet the complex and varying requirements of your board, grantors, auditors and others. The Sage MIP Fund Accounting built-in report writer features a wide selection of reports including FASB-compliant, audit-ready financial reports.

## Accounting built for nonprofit customers

Sage MIP Fund Accounting was built by nonprofit accounting experts from the ground up to offer an integrated suite of fund accounting tools. Sage goes beyond the interface, actively investing in our software's deep accounting features so our software keeps pace with our customers' changing needs.
